

Region's three electric groups offering free energy audits

October 22, 2008

The region's three electric utility companies have launched a program to help small businesses save money on their hydro bills. Cambridge-North Dumfries Hydro, Kitchener-Wilmot Hydro and Waterloo North Hydro are offering free energy audits for eligible small businesses. Those that decide to proceed with changes suggested in the audits will receive \$1,000 worth of energy improvement for free. The program, dubbed the Power Saving Blitz, is mainly aimed at helping businesses upgrade their lighting. For more information, call 1-866-932-8283 or log on to www.powersavingsblitz.ca.
